Information About the Maryland Register and COMAR

MARYLAND REGISTER

The Maryland Register is an official State publication published every other week throughout the year. A cumulative index is published quarterly.

The Maryland Register is the temporary supplement to the Code of Maryland Regulations. Any change to the text of regulations published in COMAR, whether by adoption, amendment, repeal, or emergency action, must first be published in the Register.

The following information is also published regularly in the Register:

- Governor's Executive Orders
- Attorney General's Opinions in full text
- Open Meetings Compliance Board Opinions in full text
- State Ethics Commission Opinions in full text
- Court Rules
- District Court Administrative Memoranda
- Courts of Appeal Hearing Calendars
- Agency Hearing and Meeting Notices
- Synopses of Bills Introduced and Enacted by the General Assembly
- Other documents considered to be in the public interest

CITATION TO THE MARYLAND REGISTER

The Maryland Register is cited by volume, issue, page number, and date. Example:

- 19:8 Md. R. 815—817 (April 17, 1992) refers to Volume 19, Issue 8, pages 815—817 of the Maryland Register issued on April 17, 1992.

CODE OF MARYLAND REGULATIONS (COMAR)

COMAR is the official compilation of all regulations issued by agencies of the State of Maryland. The Maryland Register is COMAR's temporary supplement, printing all changes to regulations as soon as they occur. At least once annually, the changes to regulations printed in the Maryland Register are incorporated into COMAR by means of permanent supplements.

CITATION TO COMAR REGULATIONS

COMAR regulations are cited by title number, subtitle number, chapter number, and regulation number. Example: COMAR 10.08.01.03 refers to Title 10, Subtitle 08, Chapter 01, Regulation 03.

DOCUMENTS INCORPORATED BY REFERENCE

Incorporation by reference is a legal device by which a document is made part of COMAR simply by referring to it. While the text of an incorporated document does not appear in COMAR, the provisions of the incorporated document are as fully enforceable as any other COMAR regulation. Each regulation that proposes to incorporate a document is identified in the Maryland Register by an Editor's Note. The Cumulative Table of COMAR Regulations Adopted, Amended or Repealed, found online, also identifies each regulation incorporating a document. Documents incorporated by reference are available for inspection in various depository libraries located throughout the State and at the Division of State Documents. These depositories are listed in the first issue of the Maryland Register published each year. For further information, call 410-974-2486.

HOW TO RESEARCH REGULATIONS

An Administrative History at the end of every COMAR chapter gives information about past changes to regulations. To determine if there have been any subsequent changes, check the "Cumulative Table of COMAR Regulations Adopted, Amended, or Repealed" which is found online at <http://www.dsd.state.md.us/PDF/CumulativeTable.pdf>. This table lists the regulations in numerical order, by their COMAR number, followed by the citation to the Maryland Register in which the change occurred. The Maryland Register serves as a temporary supplement to COMAR, and the two publications must always be used together. A Research Guide for Maryland Regulations is available. For further information, call 410-260-3876.

SUBSCRIPTION INFORMATION

For subscription forms for the Maryland Register and COMAR, see the back pages of the Maryland Register. Single issues of the Maryland Register are \$15.00 per issue.

CITIZEN PARTICIPATION IN THE REGULATION-MAKING PROCESS

Maryland citizens and other interested persons may participate in the process by which administrative regulations are adopted, amended, or repealed, and may also initiate the process by which the validity and applicability of regulations is determined. Listed below are some of the ways in which citizens may participate (references are to State Government Article (SG), Annotated Code of Maryland):

- By submitting data or views on proposed regulations either orally or in writing, to the proposing agency (see "Opportunity for Public Comment" at the beginning of all regulations appearing in the Proposed Action on Regulations section of the Maryland Register). (See SG, §10-112)
- By petitioning an agency to adopt, amend, or repeal regulations. The agency must respond to the petition. (See SG §10-123)
- By petitioning an agency to issue a declaratory ruling with respect to how any regulation, order, or statute enforced by the agency applies. (SG, Title 10, Subtitle 3)
- By petitioning the circuit court for a declaratory judgment on the validity of a regulation when it appears that the regulation interferes with or impairs the legal rights or privileges of the petitioner. (SG, §10-125)
- By inspecting a certified copy of any document filed with the Division of State Documents for publication in the Maryland Register. (See SG, §7-213)

COMAR Online

The Code of Maryland Regulations is available at www.dsd.state.md.us as a free service of the Office of the Secretary of State, Division of State Documents. The full text of regulations is available and searchable. Note, however, that the printed COMAR continues to be the only official and enforceable version of COMAR.

The Maryland Register is also available at www.dsd.state.md.us.

For additional information, visit www.dsd.state.md.us, Division of State Documents, or call us at (410) 974-2486 or 1 (800) 633-9657.

Availability of Monthly List of Maryland Documents

The Maryland Department of Legislative Services receives copies of all publications issued by State officers and agencies. The Department prepares and distributes, for a fee, a list of these publications under the title "Maryland Documents". This list is published monthly, and contains bibliographic information concerning regular and special reports, bulletins, serials, periodicals, catalogues, and a variety of other State publications. "Maryland Documents" also includes local publications.

Anyone wishing to receive "Maryland Documents" should write to: Legislative Sales, Maryland Department of Legislative Services, 90 State Circle, Annapolis, MD 21401.

REGULATIONS CODIFICATION SYSTEM

Under the COMAR codification system, every regulation is assigned a unique four-part codification number by which it may be identified. All regulations found in COMAR are arranged by title. Each title is divided into numbered subtitles, each subtitle is divided into numbered chapters, and each chapter into numbered regulations.

09.12.01.01D(2)(c)(iii)
 Title Subtitle Chapter Regulation Subsection Paragraph Subparagraph

A regulation may be divided into lettered sections, a section divided into numbered subsections, a subsection divided into lettered paragraphs, and a paragraph divided into numbered subparagraphs.

Cumulative Table of COMAR Regulations Adopted, Amended, or Repealed

This table, previously printed in the Maryland Register lists the regulations, by COMAR title, that have been adopted, amended, or repealed in the Maryland Register since the regulations were originally published or last supplemented in the Code of Maryland Regulations (COMAR). The table is no longer printed here but may be found on the Division of State Documents website at www.dsd.state.md.us.

Table of Pending Proposals

The table below lists proposed changes to COMAR regulations. The proposed changes are listed by their COMAR number, followed by a citation to that issue of the Maryland Register in which the proposal appeared. Errata pertaining to proposed regulations are listed, followed by “(err)”. Regulations referencing a document incorporated by reference are followed by “(ibr)”. None of the proposals listed in this table have been adopted. A list of adopted proposals appears in the Cumulative Table of COMAR Regulations Adopted, Amended, or Repealed.

EXECUTIVE ORDER 01.01.2017.13

Waste Reduction and Resource Recovery Plan for Maryland (Rescinds Executive Order 01.01.2015.01)

WHEREAS, Sustainable materials management means using and managing materials as efficiently and sustainably as possible throughout their entire life cycles;

WHEREAS, Through source reduction, reuse, and recycling, Maryland can extend existing disposal capacity, reduce the need to construct new or expanded solid waste disposal facilities, conserve natural resources, including water and energy, increase the innovative reuse and beneficial use of dredged material, and support a productive economy through recovery of valuable resources;

WHEREAS, Studies have shown that diverting material from disposal to reuse, recycling, and composting results in more jobs and a more sustainable economy;

WHEREAS, New and emerging materials management technologies provide opportunities to recover more energy, nutrients, and other resources from waste, while fostering new businesses in Maryland;

WHEREAS, The potential applications for innovative reuse or beneficial use of dredged material are vast, including transportation, climate change adaptation and publicly-funded site remediation projects, habitat creation, wetland restoration, shoreline stabilization, landscaping, road construction, landfill cover, land reclamation and the manufacture of marketable products such as concrete, bricks, blocks, aggregate and topsoil;

WHEREAS, Source reduction, reuse, and recycling reduce greenhouse gas emissions relative to disposal and can assist the State in meeting its climate change goals for 2030 and beyond;

WHEREAS, Through the combined efforts of Maryland's local governments, businesses, and residents, the State has made significant progress in recycling over the past 23 years, more than doubling the recycling rate from 19 percent in 1992 to 43 percent in 2015;

WHEREAS, A recent plateau in the recycling rate and the evolving composition of the waste stream suggest that an updated and more holistic materials management approach is needed to ensure continuous improvement;

WHEREAS, Maryland has undertaken key initiatives to strengthen recycling programs, including the establishment of clearer permitting pathways for composting facilities; adoption of more aggressive county and State government recycling rates; coordination of a statewide waste sort study; enhancement of electronics recycling education and outreach; and provision of recycling opportunities at apartments, condominiums, and special events;

WHEREAS, Maryland has recognized the importance of partnerships in achieving statewide recycling and source reduction goals, including through the cooperative efforts of waste generators, State agencies, local governments, the waste industry, the recycling industry, environmental groups, boards of education, and other interested parties; and

WHEREAS, Executive Order 01.01.2015.01 does not adequately reflect the partnerships among State government agencies, local governments, and the private sector that are essential to advancing recycling and source reduction in Maryland and that additional research and broader stakeholder consultation are needed to establish aggressive but achievable goals for recycling and source reduction;

NOW, THEREFORE, I, LAWRENCE J. HOGAN, JR., GOVERNOR OF THE STATE OF MARYLAND, BY VIRTUE OF THE AUTHORITY VESTED IN ME BY THE CONSTITUTION AND LAWS OF MARYLAND, HEREBY PROCLAIM THE FOLLOWING EXECUTIVE ORDER, EFFECTIVE IMMEDIATELY:

A. Definitions.

(1) "Department" means the Maryland Department of the Environment.

(2) "Source reduction" means the prevention of waste through changes in the way products are designed, manufactured, packaged, purchased, and used.

B. Sustainable Materials Management Policy. It is the policy of the State that solid waste and recycling planning should, to the extent practicable, seek to:

(1) Minimize the environmental impacts of materials management over their entire life cycles, including from product design to production, consumption, and end-of-life management;

(2) Conserve and extend existing in-State disposal capacity through source reduction, reuse, and recycling;

(3) Capture and make optimal use of recovered resources, including raw materials, water, energy, and nutrients; and

(4) Work toward a system of materials management that is both environmentally and economically sustainable in the long term.

C. Goals and Measurement.

(1) Stakeholder Consultation. The Department shall consult with relevant stakeholders to assess and improve the State's methodology for tracking waste generation, recycling, and source reduction in Maryland.

(2) Following stakeholder consultation, the Department shall:

(a) Recommend to the Governor a method of obtaining business source reduction and recycling data;

(b) Establish an improved method of quantifying and tracking the statewide recycling and source reduction rates; and

(c) Establish voluntary statewide goals to encourage continuous improvement of sustainable materials management

D. Building Partnerships for Sustainable Materials Management. In order to work toward the recycling and source reduction goals established herein, the Department shall pursue the following partnerships.

(1) The Department and the Maryland Department of Commerce shall work in cooperation with local economic development agencies to identify local markets for recycled materials and provide siting, permitting, and technical assistance for innovative recycling and resource recovery businesses.

(2) The Department shall work with the Maryland Department of Agriculture to support research and demonstration of innovative technologies for recovering nutrient resources in a manner protective of water quality.

(3) The Department shall work with the Maryland Energy Administration to research and promote methods of recovering energy from waste, including anaerobic digestion.

(4) The Department shall work with the Maryland Department of Transportation Port Administration to develop technical screening criteria and guidance to support innovative reuse and beneficial uses

of dredged material removed from the Port of Baltimore's shipping channels. State agencies shall consider innovative reuse and beneficial uses of dredged material when economically feasible and in conformance with all appropriate environmental standards.

(5) Targeted Outreach Partnerships.

(a) Based on the results of the statewide waste sort study, the Department shall identify key recyclable materials that continue to be disposed in significant quantities in Maryland.

(b) The Department shall seek opportunities to pool resources among producers of products, State and local government agencies, and environmental education organizations to conduct targeted outreach campaigns to reduce disposal for each of the key materials identified.

E. This Executive Order rescinds Executive Order 01.01.2015.01.

GIVEN Under My Hand and the Great Seal of the State of Maryland, in the Town of Ocean City, this 27th Day of June, 2017.

EXECUTIVE ORDER 01.01.2017.14

Office of Rural Broadband

WHEREAS, Broadband internet access has become an essential part of everyday communication and everyday life;

WHEREAS, Dependable high speed internet service has social and economic benefits, and provides an assurance that access to public services, including public safety services, will be available;

WHEREAS, Jurisdictions in Maryland have limited access to high speed internet;

WHEREAS, Underserved jurisdictions do not have resources available to increase access to high speed internet services;

WHEREAS, Partnerships and greater coordination between State government, local jurisdictions, and stakeholders would enable resource-sharing and would accelerate progress in meeting common broadband goals; and

WHEREAS, Maryland has established a long-term vision to provide affordable high speed internet service to every Maryland home by the year 2022;

NOW, THEREFORE, I, LAWRENCE J. HOGAN, JR., GOVERNOR OF THE STATE OF MARYLAND, BY VIRTUE OF THE AUTHORITY VESTED IN ME BY THE CONSTITUTION AND LAWS OF MARYLAND, HEREBY PROCLAIM THE FOLLOWING EXECUTIVE ORDER, EFFECTIVE IMMEDIATELY:

I. Establishment.

A. There is an Office of Rural Broadband (the "Office") in the Department of Information Technology.

B. The administrator of the Office shall be a Rural Broadband Director ("Director") designated by the Governor and who shall serve at the pleasure of the Governor.

II. Duties.

A. The Office shall:

1. Assist and support local Maryland jurisdictions in their improvement of access to high speed internet;

2. Identify and coordinate the delivery of resources to local Maryland jurisdictions for the improvement of access to high speed internet, including identification of sources of funds, such as federal funding, that can be used to expand access to high speed internet, and assist those jurisdictions in applying to receive those funds;

3. Work with local jurisdictions and economic-development organizations to identify areas with a demand for better internet service;

4. Identify opportunities for productive partnerships, including public-private partnerships, that enable sharing of resources and further the goal of expanding access to high speed internet;

5. Oversee projects that increase the availability of high speed internet service, including a demonstration project in Western Maryland and a demonstration project on the Eastern Shore, both of which will be completed by April 2018;

6. Investigate and identify new technologies that would increase the availability of high speed internet service in Maryland;

7. Collect, analyze, and share data relevant to increasing the availability of high speed internet service in Maryland;

8. Develop recommendations for policy, regulations, or legislation to facilitate increased availability of high speed internet access in Maryland, as well as strategies for implementing those recommendations;

9. Support and complement the assessments, evaluations, studies, and other work of the Task Force on Rural Internet, Broadband, Wireless, and Cellular Service and act consistently with the goals and purposes of the Connecting Rural Maryland Act of 2017;

10. In the performance of these duties, coordinate with:

(a) the following executive departments (the "Lead Agencies"):

- 1) The Department of Information Technology;
- 2) The Maryland Department of Housing and Community Development;
- 3) The Maryland Department of Commerce;
- 4) The Maryland Department of Transportation; and
- 5) The Maryland Department of Planning; and

(b) the following stakeholders:

- 1) County and municipal information technology officials;
- 2) The Maryland Broadband Cooperative;
- 3) The Rural Maryland Council;
- 4) Mid-Shore Regional Council;
- 5) Tri-County Council for the Lower Eastern Shore of Maryland;

- 6) Upper Shore Regional Council;
- 7) Tri-County Council for Southern Maryland;
- 8) Tri-County Council for Western Maryland;
- 9) Appalachian Regional Commission; and
- 10) Any other such stakeholders that the Director deems appropriate and invites to participate; and

11. Submit an annual report to the Governor on the progress of the State's efforts to increase access to high speed internet and containing any relevant recommendations.

B. Each Lead Agency shall:

1. Identify and coordinate resources and technology that can be used by local jurisdictions to increase the availability of high speed internet for their residents;

2. To the maximum extent permitted by law, share with one another, the Office, and local jurisdictions data relevant to increasing the availability of high speed internet for Maryland citizens; and

3. Update the Director within 45 days of the date of this Executive Order, and biannually thereafter, on its efforts to identify and coordinate resources and technology, and share data.

C. Designated agency liaisons. Each of the Lead Agencies shall designate an official liaison to assist and collaborate with the Director and Office in the fulfillment of the goals of this Executive Order.

GIVEN Under My Hand and the Great Seal of the State of Maryland, in the Town of Ocean City, this 27th Day of June 2017.

Regulatory Review and Evaluation

Regulations promulgated under the Administrative Procedure Act will undergo a review by the promulgating agency in accordance with the Regulatory Review and Evaluation Act (State Government Article, §§10-130 — 10-139; **COMAR 01.01.2003.20**). This review will be documented in an evaluation report which will be submitted to the General Assembly's Joint Committee on Administrative, Executive, and Legislative Review. The evaluation reports have been spread over an 8-year period (see **COMAR 01.01.2003.20** for the schedule). Notice that an evaluation report is available for public inspection and comment will be published in this section of the Maryland Register.

Effective Date: July 17, 2017.

Attorney General's Certification

In accordance with State Government Article, §10-113, Annotated Code of Maryland, the Attorney General certifies that the following changes do not differ substantively from the proposed text. The nature of the changes and the basis for this conclusion are as follows:

Regulation .03D(2): Adding the words “unless good cause is shown” could reasonably have been anticipated by those involved in the regulation process since few regulations are so rigid that good-cause exceptions are not permitted. The new language does not decrease the benefits, in any significant way that would have been achieved by the regulation as originally proposed: It is possible that the State might recover fewer dollars with the change to the proposed regulation, but highly unlikely. Any decrease would not be significant. In addition, this new language does not increase, in any significant way, the burden that would have imposed by the regulation as proposed: The change will decrease, rather than increase, any burden on citizens, because it would permit the amount of the civil money remedy to be reduced if good cause is shown. Therefore, it is determined that the requested change to the proposed regulation is not substantive.

Promulgation of Regulations

An agency wishing to adopt, amend, or repeal regulations must first publish in the Maryland Register a notice of proposed action, a statement of purpose, a comparison to federal standards, an estimate of economic impact, an economic impact on small businesses, a notice giving the public an opportunity to comment on the proposal, and the text of the proposed regulations. The opportunity for public comment must be held open for at least 30 days after the proposal is published in the Maryland Register.

Following publication of the proposal in the Maryland Register, 45 days must pass before the agency may take final action on the proposal. When final action is taken, the agency must publish a notice in the Maryland Register. Final action takes effect 10 days after the notice is published, unless the agency specifies a later date. An agency may make changes in the text of a proposal. If the changes are not substantive, these changes are included in the notice of final action and published in the Maryland Register. If the changes are substantive, the agency must repropose the regulations, showing the changes that were made to the originally proposed text.

Proposed action on regulations may be withdrawn by the proposing agency any time before final action is taken. When an agency proposes action on regulations, but does not take final action within 1 year, the proposal is automatically withdrawn by operation of law, and a notice of withdrawal is published in the Maryland Register.

Title 08

DEPARTMENT OF NATURAL RESOURCES

Subtitle 02 FISHERIES SERVICE

08.02.22 Sharks

Authority: Natural Resources Article, §4-2A-03, Annotated Code of Maryland

Notice of Proposed Action

[17-169-P]

The Secretary of Natural Resources proposes to amend Regulation .03 under **COMAR 08.02.22 Sharks**.

Statement of Purpose

The purpose of this action is to change the requirements for landing smoothhound sharks with fins removed. Smoothhound sharks (*Mustelus canis*) are commonly known as smooth dogfish.

The Atlantic States Marine Fisheries Commission (ASMFC) Coastal Sharks Management Board approved Addendum IV to the Fishery Management Plan (FMP) for Atlantic Coastal Sharks on August 2, 2016. As a result, the Department of Natural Resources is required to implement Addendum IV in state waters. The Addendum maintains consistency between federal and state shark fishery management plans and incorporates the intent of the smoothhound limited exception in the Shark Conservation Act of 2010 (SCA) into state regulations. Specifically, the Addendum amends the FMP to allow smoothhound carcasses to be landed with corresponding fins removed as long as the total retained catch on board at the time of landing is composed of at least 25 percent, by weight, smoothhound sharks. Trips that do not meet the 25 percent catch composition requirement can land smoothhounds, but the fins must remain naturally attached to the carcass. Fishermen may retain other sharks on board provided the fins of other shark species remain naturally attached to the carcass through landing. The proposed action changes the requirements for landing smoothhound shark fins to be consistent

with Addendum IV to the Fishery Management Plan for Atlantic Coastal Sharks.

Comparison to Federal Standards

There is no corresponding federal standard to this proposed action.

Estimate of Economic Impact

I. Summary of Economic Impact. This action may have a negative economic impact for harvesters without a federal smoothhound shark permit, dealers, and processors.

II. Types of Economic Impact.

- A. On issuing agency: NONE
- B. On other State agencies: NONE
- C. On local governments: NONE

Revenue (R+/R-)

Expenditure (E+/E-)

Magnitude

Benefit (+)
Cost (-)

Magnitude

- D. On regulated industries or trade groups:
- (1) Licensees without federal smoothhound permit (-) Indeterminable
- (2) Licensees with federal smoothhound permit NONE NONE
- (3) Dealers and processors (-) Indeterminable
- E. On other industries or trade groups: NONE
- F. Direct and indirect effects on public: NONE

III. Assumptions. (Identified by Impact Letter and Number from Section II.)

D(1). Preliminary landings data for 2016 indicate that approximately 24,000 pounds of smoothhound sharks were landed in Maryland. Eight licensees without federal commercial smoothhound shark permits landed approximately 2,000 pounds (8%) of that total. The dockside value in Maryland for 2016 for smoothhound sharks averaged \$1.40 per pound. Based on the information available it would seem that the eight individuals would each be impacted negatively by \$350 per year, but there are several factors that are unknown that makes the actual impact indeterminable. We are unable to tell from the data if the smoothhound sharks on board would make up the required harvest percentage, if the harvesters will change their fishing habits because of this action or if the harvesters will land smoothhound sharks whole. Based on those variables the actual amount is indeterminable. If the department does not implement the Addendum, Maryland could be found out of compliance and the recommendation could be made to shut down the fishery entirely in state waters, which would be a negative impact for harvesters, dealers and processors.

D(2). This rule has already been implemented in federal waters. Most smoothhound sharks landed in Maryland are landed by individuals that have a federal permit for this species. The federal permit requires permittees to abide by the most restrictive rule. In other words, since the federal rule is in place and is currently more restrictive than Maryland rules, permittees have to follow federal rules. This action will have no economic impact to individuals with federal commercial smoothhound shark permits.

D(3). This action will have a minimal impact on dealers and processors because the rule has already been implemented in federal waters. Most smooth dogfish landed in Maryland are landed by individuals that have a federal permit for this species and the federal permit requires permittees to abide by the most restrictive rule. In other words, since the federal rule is in place and is currently more restrictive than Maryland rules, permittees have to follow federal rules. Preliminary landings data for 2016 indicate that approximately 24,000 pounds of smoothhound sharks were landed in Maryland. Licensees without federal permits landed approximately 2,000 pounds (8%) of that total. If those licensees quit harvesting smoothhound sharks, it is likely that the harvesters and processors would have a negative impact, but the actual impact is indeterminable and would likely be minimal.

Economic Impact on Small Businesses

The proposed action has a meaningful economic impact on small business. An analysis of this economic impact follows.

This action may have a negative economic impact for harvesters without a federal smoothhound shark permit, dealers, and processors.

Impact on Individuals with Disabilities

The proposed action has no impact on individuals with disabilities.

Secretary of Natural Resources

Subtitle 03 WILDLIFE

08.03.01 General

Authority: Natural Resources Article, §10-408, Annotated Code of Maryland

Notice of Proposed Action

[17-182-P]

The Secretary of Natural Resources proposes to amend Regulation **.01** under **COMAR 08.03.01 General**.

Statement of Purpose

The purpose of this action is to define the term “air gun”, which became a legal weapon to use during the 2016—2017 hunting seasons. Air guns may be used to hunt deer during the firearms season. Air guns may also be used to hunt black bear, upland game birds and mammals, furbearers, and wild turkeys during the spring and winter seasons but only with an air gun propelling an arrow. This amendment will allow the Department to better inform citizens on when an air gun may be used for hunting and for which species and in which seasons. The change is also intended to keep hunting regulations current and promote the safe use of new hunting devices as they become available.

Comparison to Federal Standards

There is no corresponding federal standard to this proposed action.

Estimate of Economic Impact

The proposed action has no economic impact.

Economic Impact on Small Businesses

The proposed action has minimal or no economic impact on small businesses.

Impact on Individuals with Disabilities

The proposed action has no impact on individuals with disabilities.

Opportunity for Public Comment

Comments may be sent to Peter Jayne, Associate Director, Wildlife and Heritage Service, Department of Natural Resources, P.O. Box 68, Wye Mills, MD 21679, or call 410-827-8612, or email to peter.jayne@maryland.gov, or fax to 410-827-5186. Comments will be accepted through August 7, 2017. A public hearing has not been scheduled.

.01 Definitions.

A. (text unchanged)

B. Terms Defined.

(1) “Air gun” means any gun that propels a projectile by means of non-ignited compressed air or other gases. An air gun is considered unloaded when the bullet, pellet, arrow, bolt or other projectile is removed from the gun.

Subtitle 03 WILDLIFE

08.03.02 Use of Wildlife Areas

Authority: Natural Resources Article, §10-808, Annotated Code of Maryland

Notice of Proposed Action

[17-167-P]

The Secretary of Natural Resources proposes to amend Regulation .28 under **COMAR 08.03.02 Use of Wildlife Areas**.

Statement of Purpose

The purpose of this action is to clarify when the Deal Island Wildlife Management Area and the Fairmount Wildlife Management Area impoundments will be open to waterfowl hunting when Christmas Day and New Year's Day occur on a Sunday. The impoundments on these two wildlife areas are usually open for hunting on Christmas Day and New Year's Day, except there is no Sunday waterfowl hunting allowed by statute. The proposed amendment will open these impoundments on the following Monday. The amendment will also change the hours during which hunters may use these impoundments for hunting.

Comparison to Federal Standards

There is no corresponding federal standard to this proposed action.

Estimate of Economic Impact

The proposed action has no economic impact.

Economic Impact on Small Businesses

The proposed action has minimal or no economic impact on small businesses.

08.03.03 Open Seasons, Bag Limits for Game Birds and Game Animals

Authority: Natural Resources Article, §§10-205, 10-406, and 10-410, Annotated Code of Maryland

Notice of Proposed Action

[17-166-P]

The Secretary of Natural Resources proposes to amend Regulations .01 and .05 under **COMAR 08.03.03 Open Seasons, Bag Limits for Game Birds and Game Animals**.

Statement of Purpose

The purpose of this action is to comply with legislation passed during the 2017 session of the General Assembly. Changes to Regulation .01 will increase the number of Sundays open to deer hunting in Kent and Montgomery counties. This regulation will also restrict the shooting hours for certain deer hunting dates in Kent and Montgomery counties as required by legislation. Kent County is added to the list of counties that permit Sunday hunting during the spring turkey season. Changes to Regulation .05 will remove the prohibition for nonresidents to trap beavers and otters.

Comparison to Federal Standards

There is no corresponding federal standard to this proposed action.

Estimate of Economic Impact

The proposed action has no economic impact.

Economic Impact on Small Businesses

The proposed action has minimal or no economic impact on small businesses.

Impact on Individuals with Disabilities

The proposed action has no impact on individuals with disabilities.

Subtitle 03 WILDLIFE

08.03.04 Forest Wildlife

Authority: Natural Resources Article, §§10-205, 10-408, and 10-418, Annotated Code of Maryland

Notice of Proposed Action

[17-168-P]

The Secretary of Natural Resources proposes to amend Regulations .02, .03, .05, and .23 under **COMAR 08.03.04 Forest Wildlife**.

Statement of Purpose

The purpose of this action is to comply with legislation passed during the 2017 session of the General Assembly. Amendments to Regulation .02 add Deer Management Permit holders (i.e., permittees) to the list of persons that shall wear fluorescent orange clothing in accordance with Natural Resources Article, §10-418(b), Annotated Code of Maryland, when shooting under the authority of a deer management permit. Amendments to Regulation .03 are to broaden the means by which an individual killing a deer or turkey may report the kill to the Department. Amendments to Regulation .23

remove the exemption from wearing fluorescent orange clothing for a person hunting certain wildlife on that person's property.

In addition, as a result of recently enacted legislation, amendments to Regulation .05 will add air guns to the hunting devices that may not be carried by a person hunting deer with a bow during the deer bow hunting season. The change is intended to keep hunting regulations current with new hunting devices as they are made legal for use in Maryland.

Comparison to Federal Standards

There is no corresponding federal standard to this proposed action.

Title 10
MARYLAND DEPARTMENT OF
HEALTH [AND MENTAL
HYGIENE]
Subtitle 09 MEDICAL CARE
PROGRAMS

10.09.03 Pharmacy Services

Authority: Health-General Article, §§2-104(b), 15-103, 15-103.1, 15-105, and 15-118, Annotated Code of Maryland

Notice of Proposed Action

[17-138-P]

The Secretary of Health proposes to amend Regulations .01 and .03—.07 under **COMAR 10.09.03 Pharmacy Services**.

Statement of Purpose

The purpose of this action is to update the Department's reimbursement methodology to pharmacy providers as required by the CMS Covered Outpatient Drug final rule (CMS-2345-FC), which mandates the transition from an estimated acquisition cost to an actual acquisition cost as the basis for the State Medicaid pharmacy ingredient cost reimbursement. The proposed action also removes unnecessary references to the Primary Adult Care Program.

Comparison to Federal Standards

There is a corresponding federal standard to this proposed action, but the proposed action is not more restrictive or stringent.

Estimate of Economic Impact

I. Summary of Economic Impact. The proposed action will reduce Medicaid pharmacy ingredient cost reimbursement, and increase dispensing fee reimbursement, for a net increase in Program expenditures by \$900,000 annually.

II. Types of Economic Impact.	Revenue (R+/R-)	
	Expenditure (E+/E-)	Magnitude
A. On issuing agency:		
(1)	(E-)	\$26,900,000
(2)	(E+)	\$27,800,000
B. On other State agencies:	NONE	
C. On local governments:	NONE	

Benefit (+)
Cost (-) Magnitude

D. On regulated industries or trade groups: (+) \$900,000

E. On other industries or trade groups: NONE

F. Direct and indirect effects on public: NONE

III. Assumptions. (Identified by Impact Letter and Number from Section II.)

A(1). In order to comply with federal rules requiring ingredient cost reimbursement based upon the National Average Drug Acquisition Cost (NADAC), the fiscal estimate based on historical fee-for-service claims data (\$523.4 million) was recalculated using the NADAC methodology (\$496.5 million) in order to determine a reduction of \$26.9 million annually, total funds.

A(2). Dispensing fees, which ranged from \$2.56 to \$4.46, depending on whether they were generic or brand products, whether they were on the preferred drug list, and whether they were dispensed to nursing facility residents, are increased to \$10.49 for all brand and generic products, and \$11.49 if dispensed to nursing facility residents. This results in an increase from \$14.6 million to \$42.4 million, or \$27.8 million annually, total funds.

D. The combined impact of the increase in dispensing fees and reduction in ingredient cost reimbursement described in Section IIIA. will be an increase in reimbursement to pharmacy providers totaling \$900,000 annually.

Economic Impact on Small Businesses

The proposed action has a meaningful economic impact on small business. An analysis of this economic impact follows.

The proposed action has a meaningful economic impact on small business as described in The Estimate of Economic Impact, Section IIIA and D above.

Impact on Individuals with Disabilities

The proposed action has no impact on individuals with disabilities.

Subtitle 34 BOARD OF PHARMACY

10.34.37 Pharmacy Permit Holder Requirements — Wholesale Distribution and Nonresident Pharmacy Operations

Authority: Health-Occupations Article, §§12-205, 12-403, and 12-406,
Annotated Code of Maryland

Notice of Proposed Action

[17-177-P]

The Secretary of Health proposes to amend Regulation .01 and adopt new Regulation .04 under **COMAR 10.34.37 Pharmacy Permit Holder Requirements — Wholesale Distribution and Nonresident Pharmacy Operations**. This action was considered by the Board of Pharmacy at an open meeting held on April 19, 2017, notice of which was given by publication on the Board's website, <http://health.maryland.gov/pharmacy/Pages/index.aspx> from March 23, 2017 — April 19, 2017, pursuant to General Provisions Article, §3-302(c) Annotated Code of Maryland.

Statement of Purpose

The purpose of this action is to establish operational requirements for nonresident pharmacies. The proposed regulations will ensure that the nonresident pharmacy is practicing at the standard of care required of pharmacies domiciled in Maryland and provide the necessary regulatory tools when a nonresidential pharmacy may pose a threat to the public safety for the citizens of Maryland.

Comparison to Federal Standards

There is a corresponding federal standard to this proposed action, but the proposed action is not more restrictive or stringent.

Estimate of Economic Impact

I. Summary of Economic Impact. This proposal may have a minimal economic impact on out-of-State pharmacies because this proposal requires them to have a licensed pharmacist readily available and to have a toll-free telephone service for the patient to facilitate communication with the pharmacist. The pharmacy will incur a minimum operation cost to supply these requirements. The pharmacy may see a decrease in costs related to medication errors, such as additional medical attention and litigation costs.

II. Types of Economic Impact.	Revenue (R+/R-)	Magnitude
	Expenditure (E+/E-)	
A. On issuing agency:	NONE	
B. On other State agencies:	NONE	
C. On local governments:	NONE	
	Benefit (+) Cost (-)	Magnitude
D. On regulated industries or trade groups:		
Nonresident pharmacies	(+)	Minimal
E. On other industries or trade groups:	NONE	
F. Direct and indirect effects on public:	NONE	

III. Assumptions. (Identified by Impact Letter and Number from Section II.)

D. The proposed regulation requires the nonresident pharmacy to establish a practice of standard care. It requires the nonresident pharmacy to establish a toll-free number, to establish a library and to maintain records of all dispensing or prescription drugs in Maryland. The pharmacy will incur a minimum operation cost to supply these requirements. The pharmacy may see a decrease in costs related to medication errors, such as additional medical attention and litigation costs.

Economic Impact on Small Businesses

The proposed action has minimal or no economic impact on small businesses.

Impact on Individuals with Disabilities

The proposed action has no impact on individuals with disabilities.

Opportunity for Public Comment

Comments may be sent to Michele Phinney, Director, Office of Regulation and Policy Coordination, Maryland Department of Health, 201 West Preston Street, Room 512, Baltimore, MD 21201, or call 410-767-6499 (TTY 800-735-2258), or email to dhmh.regs@maryland.gov, or fax to 410-767-6483. Comments will be accepted through August 7, 2017. A public hearing has not been scheduled.

.01 Scope.

This chapter establishes requirements for a pharmacy licensed by the Maryland Board of Pharmacy that [engages]:

- A. Engages in wholesale distribution; or
- B. Operates as a nonresident pharmacy.

.04 Requirements for Nonresident Pharmacy Operations.

A. A Maryland licensed pharmacist may not be employed by more than one nonresident pharmacy at a time.

B. A nonresident pharmacy shall:

- (1) Hold a pharmacy permit issued by the Board;
- (2) Have a pharmacist on staff who is:
 - (a) Licensed by the Board;
 - (b) Designated as the pharmacist responsible for providing pharmaceutical services to patients in the State; and
 - (c) Regularly available on-site as needed to meet Maryland patient's needs;
- (3) Designate another Maryland licensed pharmacist as the pharmacist on staff within 60 days upon the loss of the current designated pharmacist on staff;
- (4) Be located and equipped so that the pharmacy may be operated without endangering the public health or safety;
- (5) Maintain at all times a current reference library that is appropriate to meet the needs of:
 - (a) The practice specialty of that pharmacy; and
 - (b) The consumers the pharmacy serves;
- (6) Comply with the regulations adopted by the Board establishing the types of texts required to be included in the reference libraries in each of the various practice specialty pharmacies;
- (7) Maintain at all times the minimum professional and technical equipment and sanitary appliances that are necessary in a pharmacy to:
 - (a) Prepare and dispense prescriptions properly; and
 - (b) Otherwise operate a pharmacy;
- (8) Be equipped with the minimum equipment and appliances specified by the Board under this regulation;
- (9) Be kept in a clean and orderly manner;
- (10) Store all prescription or nonprescription drugs or devices properly and safely as set forth in COMAR 10.34.22.06;
- (11) On an annual basis and within 30 days after a change of office, corporate officer, or pharmacist, disclose to the Board the

location, names, and titles of all principal corporate officers and all pharmacists who are dispensing prescriptions for drugs or devices to persons in this State;

(12) Comply with all lawful directions and requests for information from the regulatory or licensing agency of the state in which it is located and all requests for information made by the Board pursuant to this regulation;

(13) Maintain at all times a valid, unexpired permit to conduct a pharmacy in compliance with the laws of the state in which it is located;

(14) Maintain records of prescription drugs or devices dispensed to patients in this State so that the records are readily retrievable;

(15) During the pharmacy's regular hours of operation, but not less than 6 days a week, and for a minimum of 40 hours per week, provide a toll-free telephone service to facilitate communication between patients in this State and a pharmacist or an individual who:

(a) Has access to the patient's prescription records; and

(b) Is required to refer patients in the State to the responsible pharmacist licensed in the State, as appropriate;

(16) Disclose the pharmacy's toll-free telephone number on a label affixed to each container of drugs or devices;

(17) Comply with the laws of this State relating to the confidentiality of prescription records if there are no laws relating to the confidentiality of prescription records in the state in which the nonresident pharmacy is located;

(18) With regard to a prescription drug that is delivered in this State by the United States Postal Service, a common carrier, or a delivery service and is not personally hand delivered directly to a patient or to the agent of the patient at the residence of the patient or at another location designated by the patient:

(a) Provide a general written notice in each shipment of a prescription drug that alerts a consumer that, under certain circumstances, a medication's effectiveness may be affected by exposure to extremes of heat, cold, or humidity; and

(b) Provide a specific written notice in each shipment of a prescription drug that provides a consumer with a toll-free or local consumer access telephone number accessible during regular hours of operation, which is designed to respond to consumer questions pertaining to medications;

(19) Provide information regarding the process for resolving incorrectly filled prescriptions in accordance with existing regulations by:

(a) Posting a sign that is conspicuously positioned and readable by consumers at the point where prescription drugs are dispensed to consumers; or

(b) Including written information regarding the process with each prescription dispensed; and

(20) If dispensing compounded sterile preparations to patients in the State, comply with:

(a) USP standards; and

(b) COMAR 10.34.19.

C. A nonresident pharmacy may not:

(1) Offer pharmaceutical services under any term or condition that tends to interfere with or impair the free and complete exercise of professional pharmaceutical judgment or skill;

(2) Make any agreement that denies a patient a free choice of pharmacist or pharmacy services;

(3) Participate in any activity that is a ground for Board action against:

(a) A licensed pharmacist under Health Occupations Article, §12-313, Annotated Code of Maryland;

(b) A registered pharmacy technician under Health Occupations Article, §12-6B-09, Annotated Code of Maryland; or

(c) A registered pharmacy intern under Health Occupations Article, §12-6D-11, Annotated Code of Maryland; or

(4) Allow an unauthorized individual to represent that the individual is a pharmacist, a registered pharmacy intern, or registered pharmacy technician.

Secretary of Health

Subtitle 46 BOARD OF OCCUPATIONAL THERAPY PRACTICE

Notice of Proposed Action

[17-170-P]

The Secretary of Health proposes to:

(1) Amend Regulations .01 and .02 under **COMAR 10.46.01 General Regulations;**

(2) Amend Regulations .02, .04, and .07 under **COMAR 10.46.04 Continuing Competency Requirement;** and

(3) Amend Regulations .01 and .03, repeal existing Regulation .04, amend and recodify existing Regulation .05 to be Regulation .04, and recodify existing Regulation .06 to be Regulation .05 under **COMAR 10.46.07 Sanctioning Guidelines.**

This action was considered at a public meeting held on April 21, 2017, notice of which was given by publication on the Board's website at <http://health.maryland.gov/botp/Pages/Board-Meeting.aspx> pursuant to General Provisions Article, §3-302(c), Annotated Code of Maryland.

Statement of Purpose

The purpose of this action is to implement a statutory requirement for criminal history records check and to accommodate the new online licensing system. This proposal will allow applicants to apply for their occupational therapy licenses online, and licensees, employers, and consumers will be able to use mobile software applications to verify licenses. In addition, the disciplinary process will be modified to eliminate the need for sanctioning worksheets. All additional changes are only clarifying in nature.

Comparison to Federal Standards

There is no corresponding federal standard to this proposed action.

Estimate of Economic Impact

I. Summary of Economic Impact. The expenditure for the Board of Occupational Therapy is the added cost of modifying the existing contract with the software developer.

No additional costs will be added to initial applications, reactivations, and reinstatements, as these amendments are only meant to adapt the method in which the Board receives the applicants' information and provide the opportunity to apply online. In addition, no additional costs will be applied to those licensees who are audited, as the amendments only change the time in which the audits are conducted in relation to the renewal period.

There is a cost to the applicants and licensees for criminal history background checks, but this expense is not new, as it has been in effect since the statute passed more than a year ago.

II. Types of Economic Impact.	Revenue (R+/R-)	Magnitude
	Expenditure (E+/E-)	
A. On issuing agency:	(E+)	\$23,437
B. On other State agencies:	NONE	

C. On local governments:	NONE	
	Benefit (+)	
	Cost (-)	Magnitude
D. On regulated industries or trade groups:	NONE	
E. On other industries or trade groups:	NONE	
F. Direct and indirect effects on public:	NONE	

III. Assumptions. (Identified by Impact Letter and Number from Section II.)

A. The Board of Occupational Therapy will modify an existing contract to expand online services to include initial applications, temporary licenses, reinstatements and reactivations. The Board of Occupational Therapy has budgeted use of its Special Funds in order to pay for the expansion to online services for FY 18.

Economic Impact on Small Businesses

The proposed action has minimal or no economic impact on small businesses.

Impact on Individuals with Disabilities

The proposed action has no impact on individuals with disabilities.

Title 11 DEPARTMENT OF TRANSPORTATION

Subtitle 15 MOTOR VEHICLE ADMINISTRATION—VEHICLE REGISTRATION

11.15.36 Tax Credit Certificate

Authority: Commercial Law Article, §§14-1502 and 14-1503; Tax-General Article, §10-734.1(g); Transportation Article, §§12-104(b), 13-808, and 13-817; Annotated Code of Maryland

Notice of Proposed Action

[17-183-P]

The Administrator of the Motor Vehicle Administration proposes to adopt new Regulations .01—.04 under a new chapter, **COMAR 11.15.36 Tax Credit Certificate**.

Statement of Purpose

The purpose of this action is to adopt new regulations to set procedures for the issuance of a Tax Credit Certificate for an individual to claim a credit against the State Income Tax for the expense of registering a Class F vehicle in the State during the taxable year in order to conform to Chapter 502, Senate Bill 57, Acts of 2017.

Comparison to Federal Standards

There is no corresponding federal standard to this proposed action.

Estimate of Economic Impact

I. Summary of Economic Impact. These expenditures would include, external (outside vendor) programming costs estimated to be \$91,500.

The Administration would not issue an aggregate amount to Tax Credits Certificates totaling more than \$10,000 to any one taxpayer or not to exceed more than \$500,000 to all taxpayers for any taxable year.

Based on the information contained in this fiscal impact statement, the estimated economic impacts (net) are as follows: (1) to MDOT/MVA, an estimated \$91,500 expenditures in FY 17 (based on a July 1, 2017 effective date); (2) to other State agencies (Comptroller's Office), an estimated \$500,000 in expenditures; and (3) to the public, an estimated \$500,000 in cost savings.

II. Types of Economic Impact.	Revenue (R+/R-)	
	Expenditure (E+/E-)	Magnitude
A. On issuing agency: (MVA)	(E+)	\$ 91,500

B. On other State agencies:

(Comptroller) (E+) \$ 500,000

C. On local governments: NONE

Benefit (+)
Cost (-) Magnitude

D. On regulated industries or trade groups: NONE

E. On other industries or trade groups: NONE

F. Direct and indirect effects on public: (+) \$ 500,000

III. Assumptions. (Identified by Impact Letter and Number from Section II.)

A. Based on the assumptions and information included in the fiscal impact statement, this regulation change would have an impact on MVA/MDOT expenditure in FY17. These expenditures would include, external (outside vendor) programming cost estimated to be \$91,500.

B. Based on the language in this proposed regulation, for any taxable year, the Administration may not issue an aggregate amount of Tax Credit Certificates totaling more than \$500,000. The tax credits would be used to claim a credit against the State income tax. As such, the Comptroller's Office would be responsible for issuing the funds associated with the tax credits. NOTE: This fiscal impact statement is making the assumption that the full \$500,000 in tax credits would be claimed in each taxable year.

F. Based on the language in this proposed regulations, the Administration shall approve all applications that qualify for a Tax Credit Certificate on a first-come, first-serve basis and tax credits shall not total more than \$500,000. NOTE: This fiscal impact statement is making the assumption that the full \$500,000 in tax credits would be claimed in each taxable year.

Economic Impact on Small Businesses

The proposed action has minimal or no economic impact on small businesses.

Impact on Individuals with Disabilities

The proposed action has no impact on individuals with disabilities.

B. Terms Defined.

(1) "Administration" means the Motor Vehicle Administration.

(2) "Comptroller" means the Comptroller of Maryland.

(3) "Qualified vehicle" means a class F (tractor) vehicle described under Transportation Article, §13-923, Annotated Code of Maryland, that is titled and registered in the State.

(4) "Tax Credit Certificate" means a certificate issued by the Administration that certifies, a vehicle owner meets the requirements to claim a credit against the State Income Tax for the expense of registering the qualified vehicle in the State during the taxable year, as set forth under this chapter and in Tax-General Article, §10-734.1, Annotated Code of Maryland.

.03 Applying for a Tax Credit Certificate.

A. An individual or a corporation seeking a Tax Credit Certificate shall apply for a certificate in a format prescribed by the Administration.

B. An applicant for a Tax Credit Certificate shall provide the Administration with a completed application, including the title number of the vehicle for which credit is sought.

.04 Issuance of a Tax Credit Certificate.

A. In accordance with the Tax-General Article, §10-734.1, Annotated Code of Maryland, the Administration shall issue a Tax Credit Certificate.

B. The Administration may not issue a Tax Credit Certificate, for any taxable year, if:

(1) The required documents are not furnished or the information is incomplete; or

(2) The aggregate amount of Tax Credit Certificates exceeds the amount as set forth under Tax-General Article, §10-734.1(c)(2), Annotated Code of Maryland.

Subtitle 22 COMMISSION ON CRIMINAL SENTENCING POLICY

Notice of Proposed Action

[17-172-P]

The Maryland State Commission on Criminal Sentencing Policy proposes to amend:

(1) Regulations **.02, .03, .10, and .17** under **COMAR 14.22.01 General Regulations**; and

(2) Regulation **.02** under **COMAR 14.22.02 Criminal Offenses and Seriousness Categories**.

This action was considered at public meetings held on September 20, 2016 and May 9, 2017.

Statement of Purpose

The purpose of this action is to indicate modifications to the definitions in Regulation .02, the sentencing guidelines worksheet in Regulation .03, and the computation of the offender score in Regulation .10 under COMAR 14.22.01 General Regulations. Additionally, the purpose of this action is to indicate modifications to the table of seriousness categories (guidelines offense table) in Regulation .02 under COMAR 14.22.02. The proposed revisions reflect:

(1) An expanded definition of corrections options to include a sentence, with required substance abuse treatment, for the possession, administration, obtainment, etc. of controlled dangerous substances (CDS) currently outlined in Criminal Law Article, §5-601(c), and pursuant to Criminal Law Article, §5-601(e)(3), Annotated Code of Maryland;

(2) A revision to the instructions on sentencing guidelines completion to indicate that the court shall review the worksheet to confirm that the guidelines reflected on the worksheet were considered in the respective case;

(3) A minor correction to the instructions for application of the criminal record decay factor;

(4) Amended offenses from the Justice Reinvestment Act with October 1, 2017 enactment dates; and

(5) Other minor edits to the guidelines offense table.

Comparison to Federal Standards

There is no corresponding federal standard to this proposed action.

Estimate of Economic Impact

The proposed action has no economic impact.

Economic Impact on Small Businesses

The proposed action has minimal or no economic impact on small businesses.

Impact on Individuals with Disabilities

The proposed action has no impact on individuals with disabilities.

(f) Criminal Record Decay Factor. If an offender has lived in the community for at least 10 years prior to the instant offense without criminal justice system involvement resulting from an adjudication of guilt or a plea of nolo contendere, the criminal record shall be reduced by one level: from Major to Moderate, from Moderate to Minor, or from Minor to None. An offender was in the criminal justice system if the offender was on parole, on probation, incarcerated, on work release, on mandatory supervision, was an escapee, or had a comparable status [at the time the offense was committed]. An offender is not considered to be in the criminal justice system if the offender was on unsupervised probation for an offense not punishable by imprisonment.

DEPARTMENT OF THE ENVIRONMENT

Subtitle 11 AIR QUALITY

Notice of Proposed Action

[17-181-P]

The Secretary of the Environment proposes to:

(1) Amend Regulations **.01** and **.10** under **COMAR 26.11.02 Permits, Approvals, and Registration**; and

(2) Amend Regulations **.01**, **.02**, and **.04**, repeal existing Regulation **.03**, and adopt new Regulation **.03** under **COMAR 26.11.36 Distributed Generation**.

Statement of Purpose

The purpose of this action is to amend existing requirements for emergency generators and load shaving units (engines) codified under COMAR 26.11.36 — Distributed Generation to reflect changes in the federal requirements for stationary internal combustion engines (ICE) and Reciprocating Internal Combustion Engines (RICE) (hereinafter collectively referred to as “stationary engines”). In addition, changes to Regulations **.01** — Definitions, and **.10** — Sources Exempt from Permits to Construct and Approvals, of COMAR 26.11.02 – Permits, Approvals, and Registration, are being completed to coincide with the amendments being made to COMAR 26.11.36.

This action will not be submitted to the U.S. Environmental Protection Agency (EPA) for approval as part of Maryland’s State Implementation Plan (SIP).

Background

On May 18, 2009, the Maryland Department of the Environment (MDE) adopted new regulations under COMAR 26.11.09.08-1 which established nitrogen oxide (NO_x) emission requirements for emergency generators and load shaving units. Traditionally, stationary engines were installed at facilities as an emergency back-up of power in the event of a failure of electric power from the grid. Over time, as the cost of electricity increased, many facilities would operate their stationary engines during non-emergencies to reduce their electric bill during high-demand days. Owners of stationary engines also entered into contractual agreements to operate their stationary engines and perform other electricity curtailment activities to both reduce the cost of electricity and maintain electric system reliability. MDE adopted these regulations in an effort to achieve reductions in NO_x emissions during the summer ozone season when these practices were most frequently employed. Most stationary engines are fired with diesel fuel and have minimal NO_x emission controls which when operated resulted in excess NO_x emissions on the hottest and worst days for air pollution. Reductions in NO_x emissions help the State to maintain and attain the National Ambient Air Quality Standard (NAAQS) for Ozone.

On June 13, 2011, MDE further amended and re-codified the stationary engine regulations under a new Chapter COMAR 26.11.36 – Distributed Generation. The new COMAR 26.11.36 also established new annual reporting requirements for Curtailment Service Providers (CSPs) that negotiate contracts with facilities, that might operate onsite stationary engines under an electricity grid demand response event.

MDE excludes certain stationary engines from acquiring a “Permit to Construct & Registration Application” under COMAR 26.11.02 – Permits, Approvals and Registration. Emergency stationary engines

with an output less than 500 hp and non-emergency stationary engines that serve as a primary source of power for agricultural equipment or industrial equipment, with an output less than 500 hp, are exempt from getting a permit to construct. The permit forms are located at MDE’s website under “Air Quality Permitting” and “Permits to Construct and Operate Application Forms”.

Facilities typically use stationary engines to provide electric power when the normal supply is interrupted. Stationary engines are common combustion sources that collectively can have a significant impact on air quality and public health. Stationary engines emit air pollutants when fuel is burned; including carbon monoxide (CO), NO_x, volatile organic compounds (VOCs), and particulate matter (PM). The health effects of these pollutants include a range of respiratory issues, especially asthma among children and seniors. The Clean Air Act authorizes EPA to control emissions from stationary sources of air pollution. EPA regulates stationary engines through two types of regulations, the National Emission Standards for Hazardous Air Pollutants (NESHAP) and New Source Performance Standards (NSPS). Specifically, NESHAP regulates emissions of hazardous air pollutants (HAPs) from new, existing and modified sources. These standards require application of technology-based emissions standards referred to as Maximum Achievable Control Technology (MACT). The NSPS regulates emissions of criteria pollutants from new, modified, and reconstructed sources. NSPS standards require initial performance testing and ongoing monitoring to demonstrate compliance with established standards for that source category.

MDE’s action adopts 40 CFR Part 63, Subpart ZZZZ, and 40 CFR Part 60, Subpart IIII and JJJJ for stationary engines into COMAR 26.11.36 and makes the Maryland regulations consistent with the federal regulations.

MDE is exempting certain portions of the federal requirements due to the decision of the D.C. Circuit Court of Appeals in *Delaware v. EPA*. (*Delaware v. EPA*, 785 F.3d 1 (D.C. Cir. 2015)) In that case, the Delaware Department of Natural Resources challenged the operation of stationary engines for up to 100 hours under Emergency Demand Response Operation. The court vacated the “100 hour provision” that allowed for emergency demand response operation in two circumstances: when a Reliability Coordinator (such as an independent electric grid operator) has declared an Energy Emergency Alert Level 2, or when there is a deviation of voltage or frequency of five percent or greater. The provisions that were vacated are 40 CFR §60.4211(f)(2)(ii)—(iii), §60.4243(d)(2)(ii)—(iii), and §63.6640(f)(2)(ii)—(iii). Therefore, stationary engines are required to comply with the federal requirements in 40 CFR Part 63, Subpart ZZZZ and 40 CFR Part 60, Subpart IIII or JJJJ, except for these vacated provisions.

On April 15, 2016, EPA issued a guidance document addressing the vacatur of these provisions of the stationary engine NSPS and NESHAP rules; however, the CFR has not yet been updated to reflect these changes.

Sources Affected and Location

This action affects the owner or operator of stationary engines. These engines are typically located at businesses, commercial, industrial and institutional facilities, to provide electric power when the normal supply is interrupted. A common term for this type of engine is “back-up generator or emergency generator”.

Requirements

This action amends COMAR 26.11.36 - Distributed Generation by removing definitions from Regulation **.01**, clarifying applicability in Regulation **.02**, amending Regulation **.03** NO_x requirements which conflict with federal regulations, and clarifying Regulation **.04**. Additionally, this action will amend COMAR 26.11.02 — Permits,

Approvals and Registration Regulations .01 — Definitions and .10 — Sources Exempt from Permits to Construct and Approvals, as needed in order to reflect the amendments being made to COMAR 26.11.36.

In summary, amendments to COMAR 26.11.36 and 26.11.02 incorporate 40 CFR Part 63, Subpart ZZZZ and 40 CFR Part 60, Subpart IIII and JJJJ, and changes necessitated by the vacatur language resulting from the above mentioned lawsuit. As currently required under COMAR 26.11.36.04, CSPs and their participating facilities are responsible for confirming that any stationary engine under contract to operate during electricity grid demand response (non-emergency events) operates and meets federal standards and emission limits.

MDE requires stationary engines to obtain a “Permit to Construct & Registration Application” under COMAR 26.11.02 - Permits, Approvals and Registration. Emergency stationary engines with an output less than 500 hp and non-emergency stationary engines that serve as a primary source of power for agricultural equipment or industrial equipment, with an output less than 500 hp, are exempt from permit to construct requirements.

Expected Emissions Reductions

There is no expected impact to emissions, since 40 CFR Part 63, Subpart ZZZZ and 40 CFR Part 60, Subpart IIII or JJJJ already regulate the operation, reporting and maintenance of the stationary engines. However, the federal restrictions on engine use should prevent certain older, less-controlled engines from running on hot days, which results in less pollutants from these engines and greater public health protections.

Economic Impact on Affected Sources, the Department, other State Agencies, Local Government, other Industries or Trade Groups, the Public

The economic impact has been determined under the federal regulations. The public health protections warrant the federal regulations, and Maryland is clarifying coordination of the federal and state regulations. This action will not have an economic impact on the Department, other state agencies, local government, other industries or trade groups, or the public.

Comparison to Federal Standards

There is a corresponding federal standard to this proposed action, but the proposed action is not more restrictive or stringent.

Estimate of Economic Impact

The proposed action has no economic impact.

Economic Impact on Small Businesses

The proposed action has minimal or no economic impact on small businesses.

Impact on Individuals with Disabilities

The proposed action has no impact on individuals with disabilities.

Opportunity for Public Comment

The Department of the Environment will hold a public hearing on the proposed action on August 8, 2017 at 10 a.m. at the Department of the Environment, 1800 Washington Boulevard, 1st Floor Conference Rooms, Baltimore, Maryland 21230-1720. Interested persons are invited to attend and express their views. Comments may be sent to Mr. Randy Mosier, Chief of the Regulation Division, Air and Radiation Management Administration, Department of the Environment, 1800 Washington Boulevard, Suite 730, Baltimore, Maryland 21230-1720, or email to randy.mosier@maryland.gov. Comments must be received no later than 5 p.m. on August 8, 2017 or be submitted at the hearing. For more information, call Randy Mosier at (410) 537-4488.

Copies of the proposed action and supporting documents are available for review at the following locations:

A. (text unchanged)

B. Terms Defined.

(1) — (2) (text unchanged)

(3) “Demand response program” means a program that provides incentives to electricity consumers at a facility that curtails electricity usage[, particularly during peak periods or emergencies, and that affects pricing, system stability, and overall planning in the electricity market].

[(4) “Economic response program” means a demand response program where a facility is economically incentivized to curtail on-

site electricity demand from the grid when prices are high, which primarily occurs during peak electricity demand periods.

(5) Emergency.

(a) “Emergency” means a condition where the primary energy or power source is disrupted or discontinued due to conditions beyond the control of the owner or operator of a facility, including:

(i) A failure of the electrical grid;

(ii) On-site disaster or equipment failure; or

(iii) Public service emergencies such as flood, fire, natural disaster, or severe weather conditions.

(b) “Emergency” includes a PJM declared emergency.

(6) “Emergency generator” means:

(a) A engine used only during an emergency or for testing and engine maintenance purposes; and

(b) An engine that operates during an emergency according to the procedures in the PJM Emergency Operations Manual for a PJM declared emergency.

(7) “Emergency response program” means a demand response program where a facility curtails on-site electricity demand only during an emergency declared by the PJM in accordance with Manual 13, Emergency Operations, Revision 40, Effective Date August 13, 2010, as amended.]

[(8)] (4) “Engine” means a stationary *reciprocating* internal combustion engine (*RICE*) or *stationary internal combustion engine*, subject to 40 CFR Part 63 Subpart ZZZZ and 40 CFR Part 60 Subparts IIII or JJJJ, as amended.

(a) “Load shaving unit” means an engine that operates for other than an emergency to generate electricity for use on-site or for sale.

(b) “Load shaving unit” does not include an engine:

(i) Whose primary function is to generate electricity for use by the public; or

(ii) That serves as the primary source of power for agricultural equipment or industrial equipment, including the period when equipment or a facility is being maintained and the engine is used in place of the primary power source.]

[(11)] (6) —[(12)] (7) (text unchanged)

[(13)] “PJM declared emergency” means a condition that exists where the PJM Interconnection, LLC notifies electric distributors that an emergency exists or may occur and it is necessary to implement the procedures in the PJM Manual 13 Emergency Operations, as revised.]

.02 Applicability.

This chapter applies to a person who owns or operates an [emergency generator, load shaving unit,] *engine as defined in Regulation .01B of this chapter or a curtailment service provider.*

.03 Requirements for Stationary Engines.

A. *The owner or operator of an engine is subject to requirements under 40 CFR Part 63 Subpart ZZZZ, as applicable.**

B. *The owner or operator of an engine is subject to requirements, as applicable, under:*

(1) 40 CFR Part 60 Subpart IIII*; or

(2) 40 CFR Part 60 Subpart JJJJ*.

** In May 2015, the United States Court of Appeals for the District of Columbia Circuit vacated paragraphs 40 CFR 60.4211(f)(2)(ii)—(iii), 60.4243(d)(2)(ii)—(iii), and 63.6640(f)(2)(ii)—(iii). Therefore, engines subject to this chapter do not have to comply with those provisions.*

.04 Annual Report Requirement for Curtailment Service Providers (CSPs).

A. A CSP that administers a demand response program for a participating facility in the State shall provide the following information to the Department in an annual report:

(1) — (2) (text unchanged)

(3) A description of the demand response program for each participating engine[, that is, whether it is an economic response program or an emergency response program];

(4) As called for by the CSP, the dates on which each engine was requested to operate during the year and the hours of operation on each date, including:

(a) The reason for operating the engine under a demand response program[, that is, whether it is an economic response program or an emergency response program];

Title 31 MARYLAND INSURANCE ADMINISTRATION

Subtitle 03 INSURANCE PRODUCERS AND OTHER INSURANCE PROFESSIONALS

31.03.06 Surplus Lines

Authority: Insurance Article, §§2-109, 3-304, 3-306, 3-307, 3-311—3-313, 3-325[(c)], 9-301(f), 9-303(5), 9-401(i)(l), and 9-405(b), Annotated Code of Maryland

Notice of Proposed Action

[17-176-P]

The Insurance Commissioner proposes to amend Regulation .05 under **COMAR 31.03.06 Surplus Lines**.

Statement of Purpose

The purpose of this action is to amend COMAR 31.03.06.05 Surplus Lines consistent with a legislative change that occurred during the 2017 session. Ch. 37, Acts of 2017, amended Insurance Article, §3-325, Annotated Code of Maryland. This change added language stating that surplus lines brokers only need to file a semi-annual report with the Commissioner if they actually transacted surplus lines business during the preceding half calendar year. A change to Regulation .05 is necessary to conform COMAR with the new statutory language.

Comparison to Federal Standards

There is no corresponding federal standard to this proposed action.

Estimate of Economic Impact

I. Summary of Economic Impact. Minimal cost savings for businesses since they will not need to file a report unless they actually transact surplus lines business during the preceding 6 months. Minimal cost savings to the MIA as the number of reports may decrease since only surplus lines brokers who performed surplus lines business during the preceding 6 months will need to file a

report. Therefore, the number of reports received that need to be reviewed may decrease.

II. Types of Economic Impact.	Revenue (R+/R-)	
	Expenditure (E+/E-)	Magnitude
A. On issuing agency:		
Administrative cost	(E-)	Minimal
B. On other State agencies:	NONE	
C. On local governments:	NONE	
	Benefit (+)	
	Cost (-)	Magnitude
D. On regulated industries or trade groups:		
Administrative cost	(-)	Minimal
E. On other industries or trade groups:	NONE	
F. Direct and indirect effects on public:	NONE	

III. Assumptions. (Identified by Impact Letter and Number from Section II.)

A(1). Assuming the number of insurers who have to file the report goes down, since only those who have performed surplus lines business in the preceding 6 months need to submit a report, the number of reports received that have to be reviewed may decrease.

D. If some insurers were submitting the report even if they did not have any surplus lines business in the preceding 6 months, they cost might go down as that do not have to produce and submit this report.

Economic Impact on Small Businesses

The proposed action has minimal or no economic impact on small businesses.

Impact on Individuals with Disabilities

The proposed action has no impact on individuals with disabilities.

Comments will be accepted through August 7, 2017. A public hearing has not been scheduled.

.05 Surplus Lines Reports and Premium Receipts Tax.

A. Each surplus lines broker *that has transacted surplus lines business in the State during the preceding half calendar year* shall file with the Commissioner a semiannual statement that reports on business subject to the tax imposed by Insurance Article, §3-324, Annotated Code of Maryland, during the preceding half calendar year[, whether or not the surplus lines broker placed any business]. The report shall be made in accordance with the form prescribed by the Commissioner and available from the Commissioner's office.

Title 36 MARYLAND STATE LOTTERY AND GAMING CONTROL AGENCY

Subtitle 03 GAMING PROVISIONS

36.03.08 Collection of Taxes, Fees, and Penalties

Authority: State Government Article, §§9-1A-01, 9-1A-04, 9-1A-26, and 9-1A-33, Annotated Code of Maryland

Notice of Proposed Action

[17-179-P]

The Maryland State Lottery and Gaming Control Agency proposes to amend Regulations .01 — .03 under **COMAR 36.03.08 Collection of Taxes, Fees, and Penalties**. This action was considered at the Maryland Lottery and Gaming Control Commission open meeting held on May 25, 2017, notice of which was given pursuant to General Provisions Article, §3-302(c), Annotated Code of Maryland.

Statement of Purpose

The purpose of this action is to update the regulations to implement new legislation (S.B. 496, Ch. 445, Acts of 2017) that takes effect July 1, 2017, and requires the State Lottery and Gaming Control Commission to adopt regulations allowing a casino that returns to successful players more than the amount of money bet through video lottery terminals or table games on a given day to subtract that “negative” amount from the proceeds of a following day. Losses may not be subtracted for more than two consecutive gaming days.

Comparison to Federal Standards

There is no corresponding federal standard to this proposed action.

Estimate of Economic Impact

I. Summary of Economic Impact. It is unclear what, if any, impact will happen if there is a decrease in revenue to the Education Trust Fund (ETF) revenues. Although the Department of Legislative Services indicates in its Fiscal and Policy Note on S.B. 496 that there could be a decrease in the ETF by approximately \$1.82 million in fiscal 2018 and by \$1.92 million in fiscal 2022, it also notes however that to the extent that allowing licensees to carry forward losses encourages larger bets and high-stakes gambling, the impact on table game revenues could be less. The Agency believes that this decrease in revenue would be more than offset and there would be an overall positive impact on revenue because it would allow casinos to market better to their largest customers. Such marketing requires that casinos accept larger bets when appropriate, despite the increased volatility such large bets can create. The Agency believes that such volatility evens out over time and marketing to large players will likely lead to increased gaming revenue.

II. Types of Economic Impact.	Revenue (R+/R-)	
	Expenditure (E+/E-)	Magnitude
A. On issuing agency:	NONE	
B. On other State agencies:	NONE	

C. On local governments:

Local impact grants	(R-)	Minor
	Benefit (+)	
	Cost (-)	Magnitude

D. On regulated industries or trade groups: NONE

E. On other industries or trade groups: NONE

F. Direct and indirect effects on public:

Education Trust Fund (ETF)	(+)	Possible positive impact on revenue to the ETF
----------------------------	-----	--

III. Assumptions. (Identified by Impact Letter and Number from Section II.)

C. If encouraging the casinos to take larger bets and market to high-stakes gambling does not lead to increased gaming revenue, there could be a small impact.

F. If encouraging the casinos to take larger bets and market to high-stakes gambling leads to increased gaming revenue, there could be an impact to the ETF

Economic Impact on Small Businesses

The proposed action has minimal or no economic impact on small businesses.

Impact on Individuals with Disabilities

The proposed action has no impact on individuals with disabilities.

Butler, Director of Legislative and Policy Affairs, Maryland Lottery and Gaming Control Agency, 1800 Washington Blvd., Suite 330, Baltimore, MD 21230, or call (410) 230-8781, or email to jbutler@maryland.gov, or fax to (410) 230-8727. Comments will be accepted through August 7, 2017. A public hearing has not been scheduled.

.01 General.

This chapter establishes the manner and method by which the Commission may collect from an applicant or licensee a tax, fee or civil penalty established under State Government Article, Title 9, Subtitle 1A, Annotated Code of Maryland, *and the manner by which a facility operator may reconcile proceeds under State Government Article, §9-1A-26, Annotated Code of Maryland.*

.02 Definitions.

A. (text unchanged)

B. Terms Defined.

(1) (text unchanged)

(2) "Penalty" has the meaning stated in COMAR 36.03.04.02.

(3) "Proceeds" has the meaning stated in State Government Article, §9-1A-01, Annotated Code of Maryland.

.03 Obligation to Pay.

A. — B. (text unchanged)

C. Reconciliation of Proceeds.

(1) *In reconciling proceeds as described in this section, a facility operator shall account for video lottery terminal proceeds separately from table game proceeds.*

(2) *If a facility operator returns to successful players more than the amount of money bet through video lottery terminal or table game play on a gaming day, the facility operator may subtract the*

difference between the amount bet and the amount returned to players from its proceeds of the next consecutive gaming day.

(3) A facility operator may:

(a) *Subtract the total difference described in §C(2) of this regulation for the following consecutive gaming day; and*

(b) *If the total difference described in §C(2) of this regulation exceeds the amount of proceeds for the following consecutive gaming day, continue to subtract the remaining difference after the first day for up to one additional consecutive gaming day.*

(4) *A facility operator may not subtract losses pursuant to §C(3) of this regulation for more than two consecutive gaming days.*

HANDGUN ROSTER BOARD

Official Handgun Roster — July 1, 2017

The following is a list of handguns manufactured after January 1, 1985 that have received final approval by the Handgun Roster Board and that are not otherwise prohibited by law. Manufacturers are listed alphabetically. Be advised that the Handgun Roster has been amended in accordance with Senate Bill 619, Chapter 456 of the Laws of Maryland, effective June 1, 1994, which prohibits the sale of certain assault pistols in the State of Maryland. Please consult the law or Firearms Bulletin 94-1, which is available from the Maryland State Police Licensing Division.

Additionally, Senate Bill 281 prohibits detachable magazines with a capacity of more than 10 rounds of ammunition. It is unlawful to manufacture for distribution or sale or to sell or offer for sale in Maryland any handgun manufactured after January 1, 1985, that is not officially on the Handgun Roster, except for the manufacture of prototype models required for design, development, testing, and approval by the Board. Neither the State of Maryland nor any agency, officer, or employee of the State assumes any liability for injuries caused by any handgun on the Handgun Roster.

MARYLAND HEALTH CARE COMMISSION

Subject: Formal Start of Review
Add'l. Info: The Maryland Health Care Commission (MHCC) hereby gives notice of docketing of the following application for Certificate of Need:

FutureCare — Homewood — Docket No. 17-24-2396 — Construction and renovation project for the relocation of the 30 temporarily delicensed comprehensive care facility ("CCF") beds from MedStar Good Samaritan Hospital to the Homewood campus for a total of 178 CCF beds at the facility; Proposed Cost: \$6,799,182.

MHCC shall review the application under Health-General Article, §19-101 et seq., Annotated Code of Maryland, COMAR 10.24.01, and the applicable State Health Plan standards.

Any affected person may make a written request to the Commission to receive copies of relevant notices concerning the application. All further notices of proceedings on the application will be sent only to affected persons who have registered as interested parties.

Persons desiring to become interested parties in the Commission's review of the above-referenced application must meet the requirements of COMAR 10.24.01.01B(2) and (20) and must also submit written comments to the Commission no later than close of business August 7, 2017. These comments must state with particularity the State Health Plan standards or review criteria that you believe have not been met by the applicant as stated in COMAR 10.24.01.08F.

Please refer to the Docket Number listed above in any correspondence on the application. Copies of the applications are available for review in the office of MHCC during regular business hours by appointment. All correspondence should be addressed to Paul E. Parker, Director, Center for Health Care Facilities Planning & Development, Maryland Health Care Commission, 4160 Patterson Avenue, Baltimore, Maryland 21215.

MARYLAND DEPARTMENT OF TRANSPORTATION AVIATION ADMINISTRATION

Subject: Public Meeting
Date and Time: August 16, 2017, 6 p.m.; Additional Date: Wednesday, November 15, 2017, 6 p.m.

Place: 991 Corporate Blvd., Assembly Rm., Linthicum, MD

Add'l. Info: Senate Bill 276 established the Citizens Committee for the Enhancement of Communities Surrounding Baltimore/Washington International Thurgood Marshall (BWI) Airport. The intent of this legislation is to provide benefit to those citizens living in the communities impacted by the daily operations of BWI Airport, by allowing them the opportunity to apply for grants for transportation related projects. Typical projects include speed humps, streetscapes, bus shelters, and sidewalk repairs. These communities must be located within the most recently certified Airport Noise Zone or within 2 miles of the outermost noise contour. The Community Enhancement Committee (Committee) reviews and evaluates the grant applications from eligible communities to ensure that all grant requirements are met. The Maryland Department of Transportation Maryland Aviation Administration (MDOT MAA) and MDOT Legal Office represent the Department on the Committee. Representatives from the Maryland Department of Transportation State Highway Administration (MDOT SHA) and Maryland Department of Transportation Maryland Transit Administration (MDOT MTA) also provide comments and recommendations on projects associated with their agencies, as well as local government, before the recommendations are then forwarded to the MDOT Secretary for approval.

GENERAL NOTICES

The program funding comes from the Maryland Transportation Trust Fund and is budgeted through The Secretary's Office. The yearly funding formula is equal to \$1 for every aircraft take-off and landing at BWI Airport for the most recently available calendar year. The program is divided into four grant cycles with application deadlines the first of August, November, February, and May.

Transportation Community
Enhancement Grant (CEG) Committee
Remaining 2017 Meeting Dates:

- Wednesday, August 16
- Wednesday, November 15

Meetings begin at 6 p.m. in the Assembly Room at 991 Corporate Boulevard in Linthicum, Maryland unless otherwise noted. For additional information regarding CEG Committee meetings, please contact Kim Davidson at 410-859-7456.

**MARYLAND DEPARTMENT OF
TRANSPORTATION/MARYLAND
BOARD OF AIRPORT ZONING
APPEALS**

Subject: Public Hearing

Date and Time: July 18, 2017, 10 a.m.

Place: MDOT Headquarters, 7201 Corporate Center Dr., Board Rm., Hanover, MD

Add'l. Info: The Board will hear the following case:

Docket Number 408

Anne Arundel County Department of Public Works is proposing to utilize a temporary crane for the renovations of a water tower located at 326 Benton Avenue, Linthicum, Maryland 21090. This location is approximately 6,100 feet northeast of Runway 15L at Baltimore Washington Thurgood Marshall International Airport. The proposed height of the temporary crane is 157 feet above ground level (AGL)/320 feet mean sea level (MSL). The temporary crane height will exceed the Code of Federal Regulations (FAR) Part 77, Objects Affecting Navigable Airspace by 27 feet. Code of Maryland Regulations (COMAR) 11.03.06.03 and 11.03.06.04, Height Limits in Airport Districts enables the proponent to seek a variance from the Board of Airport Zoning Appeals (BAZA) for any proposed penetration of FAR Part 77. The Federal Aviation Administration has processed and issued a Determination of No Hazard to Air Navigation for Temporary Structure (ASN # 2017-AEA-4484-OE). Therefore, the Maryland Aviation Administration will present BAZA Case 408 to the Board of Zoning

Appeals on Tuesday, July 18, 2017 at 10:00 a.m.

For additional information or appropriate auxiliary aids and services for qualified individuals with disabilities, please contact Deborah Mahoney-Fowler at 410-865-1233 (voice) or MD Relay (TTY Users).
