HOW TO CITE RULES AND RSMO

RULES

The rules are codified in the Code of State Regulations in this system—

Title		Division	Chapter	Rule
3	CSR	10-	4	.115
Department	Code of	Agency	General area	Specific area
	State	Division	regulated	regulated
	Regulations		_	_

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation, for example, 3 CSR 10-4.115 NOT Rule 10-4.115.

Citations of RSMo are to the Missouri Revised Statutes as of the date indicated.

Title 10—DEPARTMENT OF NATURAL RESOURCES Division 80—Solid Waste Management Chapter 6—Local Solid Waste Management

ORDER OF RULEMAKING

By the authority vested in the Director of the Department of Natural Resources under section 260.225, RSMo 2016, the director rescinds a rule as follows:

10 CSR 80-6.010 Local Solid Waste Management is rescinded.

A notice of proposed rulemaking containing the proposed recession was published in the *Missouri Register* on July 16, 2018 (43 MoReg 1892–1893). No changes have been made to the proposed rescission, so it is not reprinted here. This proposed rescission becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: No comments were received.

Title 10—DEPARTMENT OF NATURAL RESOURCES Division 80—Solid Waste Management Chapter 7—Infectious Waste Management

ORDER OF RULEMAKING

By the authority vested in the Director of the Department of Natural Resources under section 260.225, RSMo 2016, the director amends a rule as follows:

10 CSR 80-7.010 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on July 16, 2018 (43 MoReg 1893–1895). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing on this proposed amendment was held August 21, 2018, and the public comment period ended August 28, 2018. At the public hearing, department staff provided testimony on the proposed amendment. No comments were made at the public hearing. The department received written comments during the comment period from Ms. Selin Hoby with Stericycle Inc. and department staff.

COMMENT #1. Ms. Selin Hoby with Stericycle Inc. commented that the application of requirements contained in 10 CSR 80-5 to infectious waste processing facilities places burdens on these sorts of facilities that are not necessary to protect human health or the environment. Examples provided included dust and vector control. Accordingly, she requested numerous changes to 10 CSR 80-5.

RESPONSE: The department agrees with the comment that review of the requirements applied to the infectious waste industry is needed. But, the requirements highlighted by commenter are in 10 CSR 80-5 not 10 CSR 80-7. Chapter five is not open for amendment at this time, therefore the Department cannot change these requirements during this rulemaking. The department plans to convene an infectious waste workgroup to consider this and other comments that would require concurrent revision to both 10 CSR 80-5 and 10 CSR 80-7. No changes have been made to the rule as a result of this comment.

COMMENT #2. 10 CSR 80-7.010(1)(A)1. and (3)(C)7. Ms. Selin Hoby with Stericycle Inc.: "Transfer station becomes generator if

permitted as an infectious waste processing facility"; this requirement does not make any sense. It does not fit if you are sending waste for pass through at a processing facility. We recommend that this requirement be deleted. The generator should stay the generator and be liable for the waste. This is especially true if there was nonconforming waste.

RESPONSE: The department did not propose amendments to these provisions and believes the requested changes are outside the scope of the current rulemaking. Additionally, not all transfer stations are used as simple pass-through facilities. Some transfer stations combine materials (i.e., change the number of containers), thereby facilitating the need to document as a generator to track the waste. The department agrees that further review of 10 CSR 80-7 may be necessary to modernize or clarify regulations and plans to convene an infectious waste workgroup to consider this and other comments that require revision of 10 CSR 80-7. No changes have been made to the rule as a result of this comment.

COMMENT #3. 10 CSR 80-7.010(1)(A)3. Ms. Selin Hoby with Stericycle Inc.: This section sets out to identify wastes, however, never specifies what to do with them (if anything was intended) in terms of treatment. We recommend that this section be modified; the term "isolation wastes" is not commonly used and should be replaced with a regulated medical waste definition. We also recommend reviewing our letter for additional comments on trace chemotherapy waste and pharmaceuticals. Once established we recommend specifying treatment for the different waste streams to clarify what DNR desires be done with the waste.

RESPONSE: The department did not propose amendments to this provision and believes the requested changes are outside the scope of the current rulemaking. The list of wastes is intended to provide more detail to the statutory definition of infectious waste in section 260.200, RSMo, without specifying specific treatment for each waste stream. The department agrees that further review of 10 CSR 80-7 may be necessary to modernize definitions or clarify regulations and plans to convene an infectious waste workgroup to consider this and other comments that require revision of 10 CSR 80-7. No changes have been made to the rule as a result of this comment.

COMMENT #4: 10 CSR 80-7.010(3)(A)1.B. and (3)(B)6. Ms. Selin Hoby with Stericycle Inc., recommends that these requirements be removed or that there be an additional consideration for transportation/treatment facilities to help facilitate in these activities.

RESPONSE: The department did not propose amendments to these provisions and believes the requested changes are outside the scope of the current rulemaking. The department agrees that further review of 10 CSR 80-7 may be necessary to modernize or clarify regulations and plans to convene an infectious waste workgroup to consider this and other comments that require revision of 10 CSR 80-7. No changes have been made to the rule as a result of this comment.

COMMENT #5: 10 CSR 80-7.010(3)(C). Tracking Documents Section. Ms. Selin Hoby with Stericycle Inc.: There are several things in this section that are not in line with the DOT PHMSA regulations. These include what is required on the shipping documents - this is very specific and important from a DOT transporter compliance perspective. Additionally, much of the information requested in this section can be identified and tracked electronically through different tools. We would recommend that much of this section be reevaluated and amended to be consistent and compliant with the DOT PHMSA regulations. We would also recommend that records be permitted to be tracked and maintained electronically.

RESPONSE: The current regulations require record keeping, but do not specify the manner in which records are kept. The department agrees that further review of 10 CSR 80-7 may be necessary to determine whether existing federal requirements already require the regulated community collect and track sufficient information for purposes of the department fulfilling its statutory obligations. No changes have

been made to the rule as a result of this comment.

COMMENT #6: 10 CSR 80-7.010(3)(C)3. Ms. Selin Hoby with Stericycle Inc.: We have approached the MODNR regarding the legality of this in previous years and discussions. Section 260.203.8 and 10 CSR 80-7.010(5)(D) are unconstitutional and invalid, because they unreasonably and unjustifiably burden interstate commerce. The State may not collect the 10% tax under either section 260.203.8 or 10 CSR 80-7.010(5)(D). This requirement should be deleted.

RESPONSE: In response to Stericycle's comments submitted during stakeholder engagement, this requirement was deleted as part of the proposed rulemaking for the Red Tape Reduction Initiative, as published in the proposed amendment in the *Missouri Register* on July, 16, 2018 (43 MoReg 1893–1895). No additional changes have been made to the rule as a result of this comment.

COMMENT #7: 10 CSR 80-7.010(5) Permitted Infectious Waste Processing Facility. Ms. Selin Hoby with Stericycle Inc.: This section is where most of the treatment facility requirements reside, however it references back to the solid waste rules. This cross referencing creates confusion and also, as stated above, several sections of the solid waste permitting of facilities are not applicable to RMW facilities. This is the section we would recommend be revised to have more detailed requirements and be moved from the solid waste section, but be more specific to the RMW facility needs. This could be an opportunity for the MODNR to engage with stakeholders to develop this section better and remove unnecessary requirements.

RESPONSE: Infectious waste processing facilities are required to comply with certain standards found in 10 CSR 80-5 by operation of language both in 10 CSR 80-7 and 10 CSR 80-5. Solely eliminating the cross references in 10 CSR 80-7 would increase, not decrease, confusion about the applicable requirements. The department did not open 10 CSR 80-5 for amendment and therefore accomplishing what is requested by the commenter is outside the scope of this rulemaking. The department agrees that further review of 10 CSR 80-7 and 10 CSR 80-5 may be necessary to modernize or clarify regulations and plans to convene an infectious waste workgroup to consider this and other comments that require revision of 10 CSR 80-7. No changes have been made to the rule as a result of this comment.

COMMENT #8: 10 CSR 80-7.010(5)(A)2.B. Ms. Selin Hoby with Stericycle Inc.: While this is not an uncommon requirement, it becomes a very burdensome task for commercial facilities who operate close to 24hrs/day 7 days per week. These facilities are closely monitored and have electronic parametric monitoring. Recommend that the testing be conducted at large or commercial operations once a month.

RESPONSE: Industry standard is that each bin have a test strip placed in the center of the waste to ensure the proper temperature, pressure, and residence times are achieved for effective treatment. This requirement is needed for protection of public health and safety. No changes have been made to the rule as a result of this comment.

COMMENT #9: 10 CSR 80-7.010(5)(A)2.C. Ms. Selin Hoby with Stericycle Inc.: This has traditionally been interpreted by inspectors to mean each autoclave bin for each cycle run. This is a very difficult process. There are not many scales that work in this environment and keep accurate weights. There is no other state in the country that requires this. The way these facilities are tested during the validation process is through overall weight captured during the loading of the bins providing a total per cycle, per shift, or per day. In some states it is simply a total volume limit per year that must be maintained. It is unclear, when autoclaving is a common and safe method used, why this requirement is here. For commercial operations this is a daunting task. Request that this be clarified to be weight data collected per some other unit of measure for large scale commercial facilities. We would also request that the data be made available electronically.

RESPONSE: Autoclaves have a maximum weight limit for effective

treatment. Without the weight data, it is impossible to ensure the autoclaves are not overcharged, thus not adequately treating all of the waste. No changes have been made to the rule as a result of this comment.

COMMENT #10: 10 CSR 80-7.010(5)(B). Ms. Selin Hoby with Stericycle Inc.: As stated before RMW transfer stations work very differently than MSW facilities. RMW transfer stations are not set up nor do they operate the way that a solid waste transfer station is set up. The regulations should be modified to reflect this difference. This requires facilities to have to adhere to requirements that would not normally be applicable to an RMW facility. We do not have waste operations that are open, all containers maintain closure at all times. We recommend that references to the solid waste sections be removed and we would welcome the opportunity to work with the department to discuss best regulatory guidance for transfer stations to ensure safety and security of the waste.

RESPONSE: The requested changes are outside the purview of the current amendment. The department agrees that further review of 10 CSR 80-5 and 10 CSR 80-7 may be necessary to modernize or clarify regulations and plans to convene an infectious waste workgroup to consider this and other comments that would require concurrent revision of both 10 CSR 80-5 and 10 CSR 80-7. No changes have been made to the rule as a result of this comment.

COMMENT #11: 10 CSR 80-7.010(5)(C)1. Ms. Selin Hoby with Stericycle Inc.: RMW processing areas are very different than solid waste type facilities. These regulations seem to still reflect similarities to solid waste requirements. RMW containers should be allowed to be stored in the processing area while they await treatment.

Containerized waste is stacked and moved in line for treatment. This helps to facilitate ease of processing, helps to clear out route trucks and trailers so that they can be prepared for the next pick up day, and in some cases waste comes in requiring the waste to be moved up in line (spill situation, putrescent waste delivered that must be immediately processed) which may require the waste to remain in the processing area for longer than twenty-four (24) hours. We would recommend that this be changed to: "Waste shall be continuously processed. Waste must be maintained in their packing and properly stored in the area for up to seven (7) days. Any waste that becomes putrescent must be processed immediately.

RESPONSE: In response to Stericylce's comments submitted during stakeholder engagement, the proposed rulemaking added new subparagraph 10 CSR 80-7.010(5)(C)2.B. to allow up to seventy-two (72) hours (from Friday afternoon until Monday morning) for storage; when processing ceases, all untreated waste must be stored in a refrigerated storage area separate from the processing area, in original containers (unless containers were damaged/breached). This change was included as part of the proposed rulemaking for the Red Tape Reduction Initiative, as published in the proposed amendment in the *Missouri Register* on July, 16, 2018 (43 MoReg 1893–1895). No additional changes have been made to the rule as a result of this comment.

COMMENT #12: 10 CSR 80-7.010(5)(C)2.C. Ms. Selin Hoby with Stericycle Inc.: Floors impervious to liquids and curbing are requirements of hazardous waste facilities so as to prevent hazardous chemical waste from migrating from the facility, or from getting to the sewer system. Though the department should recommend that precautions be taken to prevent infectious waste spills, an infectious waste spill is less likely to harm human health or the environment than a hazardous waste spill. Requiring a floor impervious to liquids and requiring curbing are overkill and expensive to install and maintain. Recommend that facilities have a spill plan for responding to an infectious waste spill, and that plan should be immediately enacted upon discovery of the spill.

RESPONSE: In response to Stericycle's comments submitted during stakeholder engagement, this requirement was modified as part of the proposed rulemaking for the Red Tape Reduction Initiative, as published in the proposed amendment in the *Missouri Register* on July, 16, 2018 (43 MoReg 1893–1895). No changes have been made to the rule as a result of this comment.

COMMENT #13: 10 CSR 80-7.010(5)(D) and (5)(D)3.A. Ms. Selin Hoby with Stericycle Inc.: Currently pay two dollars (\$2) per ton of waste accepted. Also have to pay a fee of ten percent (10%) of the total dollar amount charged by the facility for the management of waste for those customers outside of a three hundred (300) mile radius. We are also then required to do a very time consuming quarterly fee. This issue has been debated between MODNR and Stericycle for several years. Inconsistency in the way it has been interpreted has lead to auditing and severe penalties. As noted previously, 10 CSR 80-7.010(5)(D) are unconstitutional under the dormant Commerce Clause, because the provisions: (i) facially discriminate against interstate commerce and other states; and (ii) their burdens on interstate commerce outweigh any legitimate purposes the State may articulate. This requirement should be removed. The subsequent requirement for the quarterly report should be removed or amended.

RESPONSE: In response to Stericycle's comments submitted during stakeholder engagement, the requirement for the distance surcharge under 10 CSR 80-7.010(5)(D)2. was deleted as part of the proposed rulemaking for the Red Tape Reduction Initiative, as published in the proposed amendment in the *Missouri Register* on July, 16, 2018 (43 MoReg 1893–1895). No changes have been made to the rule as a result of this comment.

COMMENT #14: A Solid Waste Management Program staff member requested the removal of subparagraph (5)(A)1.E. because it duplicates language in (5)(A)1.F. and to make the language consistent with other sections of this rule.

RESPONSE: Changes were made to the text of the proposed rule-making in response to this comment and section (5) is reprinted below.

COMMENT #15: A staff member requested the addition of the word "waste" in (5)(A)2.G. to make the language read "processing of the infectious waste, and the plan".

RESPONSE: Changes were made to the text of the proposed rule-making in response to this comment and section (5) is reprinted below.

10 CSR 80-7.010 Infectious Waste Management

- (5) Permitted Infectious Waste Processing Facility. This section sets forth requirements for solid waste processing facilities permitted for the treatment or other processing of infectious waste. A report shall be submitted to the department containing plans, as defined in 10 CSR 80-2.010, addressing the requirements of sections 260.200-260.345, RSMo and 10 CSR 80.
- (A) Treatment Facility. An infectious waste processing facility permitted for the treatment of infectious waste means a facility that has received a solid waste processing facility permit as provided in sections 260.200-260.345, RSMo and 10 CSR 80-2.020, 10 CSR 80-5.010, and this rule. The solid waste processing facility construction and operating permit shall specifically allow for the treatment of infectious waste as provided by this rule. Two (2) treatment technologies are approved for the treatment of infectious waste by permitted facilities—incineration and steam sterilization. Chemical sterilization and other types of treatment may be approved by the department on a case-by-case basis.
- 1. Permitted infectious waste incinerators shall be multi-chambered and be designed to provide complete combustion for the type of waste introduced into the incinerator. The incinerator shall achieve a minimum temperature of one thousand eight hundred degrees Fahrenheit (1800 °F) in the secondary chamber with a minimum retention time of one-half (1/2) second in the secondary chamber.

Automatic controls that lock out the load system if the secondary chamber is not up to the minimum temperature and automatic, continuous temperature recording charts for the secondary chamber shall be equipped on the incinerator and utilized during any infectious waste treatment process.

- A. The operator shall visually inspect each batch of ash from batch-type ash removal systems prior to disposal. The operator shall visually inspect the ash from continuous ash removal systems a minimum of once per hour during operation.
- B. Any partially combusted organic materials observed will be noted in the facility log. The facility manager shall be notified and corrective action taken. The corrective action and new ash observations shall be noted in the facility log.
- C. Amount of waste treated each hour shall be recorded in the facility log by weight.
- D. The plans shall include a statement quantifying the maximum amount, by weight, of infectious waste to be accepted each month.
- E. The plans shall contain procedures for the handling of spills during unloading, storage, and processing of the infectious waste, and the plan will be implemented immediately upon discovery of any spill.
- F. A solid waste technician trained in the handling of infectious waste and in the operation of the incinerator shall be on-site during any treatment process. Evidence of training shall be maintained on-site. The plans shall contain an outline of the training, including the name and qualifications of the person(s) providing the training.
- 2. Steam sterilization by permitted facilities using autoclaves is an acceptable means of treating infectious waste when operated at sufficient temperatures for adequate periods of time to kill infectious agents present in the waste. Automatic continuous time and temperature recording charts shall be utilized on each unit during operation. Units shall be operated according to manufacturer's recommendations.
- A. During initial operational testing, four (4) waste charges representing the maximum amount of waste to be processed in any charge shall be treated. Each charge shall contain all types of waste that are to be treated at the facility and shall be packaged as the waste will be packaged for treatment during normal operations. For each of the four (4) waste charges, three (3) biological indicators approved by the department (such as three (3) vials of Bacillus stearothermophilus), shall be placed inside separate containers of simulated waste (that is, sharps containers, autoclaveable bags), distributed throughout the waste charge prior to treatment, recovered after treatment, cultured, and analyzed. Any positive reading constitutes a failure of the treatment process and shall require corrective action and retesting in accordance with this subparagraph.
- B. Each sterilizer shall be tested each week by placing one (1) department-approved biological indicator inside a waste container prior to treatment. The biological indicator shall be recovered, cultured, and analyzed. A positive indicator constitutes a failure of the treatment process. The sterilizer shall not be used to treat infectious waste until corrective action has been taken and results verified. Upon completion of corrective action, the sterilizer shall be retested in accordance with subparagraph (5)(A)2.A. of this rule. Results of biological indicator tests and any corrective action shall be recorded in the facility log.
- C. Amounts of waste treated each load shall be recorded in the facility log by weight.
- D. Sharps that were treated by steam sterilization shall be packaged in rigid, leak-resistant and puncture-resistant containers, and sealed prior to disposal.
- E. Sharps that have been rendered innocuous by an approved method and that have been shredded so as not to pose a puncture hazard are not required to be transported, packaged, or stored in rigid, semi-rigid, leak-resistant or puncture-resistant containers. Such sharps may be disposed of in a sanitary landfill as a solid waste.

- F. The plans shall include a statement quantifying the maximum amount, by weight, of infectious waste to be accepted each month.
- G. The plans shall contain procedures for the handling of spills during unloading, storage, and processing of the infectious waste, and the plan will be implemented immediately upon discovery of any spill.
- Ĥ. A solid waste technician trained in the handling of infectious waste and in the operation of the steam sterilizer shall be onsite during any treatment process. Evidence of training shall be maintained on-site. The plans shall contain an outline of the training, including the name and qualifications of the person(s) providing the training.

Title 10—DEPARTMENT OF NATURAL RESOURCES Division 80—Solid Waste Management Chapter 8—Scrap Tires

ORDER OF RULEMAKING

By the authority vested in the Director of the Department of Natural Resources under section 260.225, RSMo 2016, the director amends a rule as follows:

10 CSR 80-8.020 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on July 16, 2018 (43 MoReg 1895–1896). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing on this proposed amendment was held August 21, 2018, and the public comment period ended August 28, 2018. At the public hearing, department staff provided testimony on the proposed amendment. No comments were made at the public hearing. One (1) comment was received from a staff member and is detailed below.

COMMENT #1. A staff member requested the addition of the word "section" in (5)(B) to make the language read "pursuant to section 260.270.3(5), RSMo".

RESPONSE AND EXPLANATION OF CHANGE: Changes were made to the text of the proposed rulemaking in response to this comment and section (5) is reprinted below.

10 CSR 80-8.020 Scrap Tire Collection Centers and End-User Registration

- (5) Record Keeping Requirements.
- (A) The owner/operator of a scrap tire collection center shall maintain records, on forms provided by or approved by the department for at least three (3) years. The period of record retention extends upon the written request of the department or automatically during the course of any unresolved enforcement action regarding the regulated activity. The records shall be made available for inspection by the department or its designated representative upon request. Scrap tire collection centers shall also maintain records of vector control activities.
- (B) The owner/operator of a scrap tire end-use facility shall maintain records pursuant to section 260.270.3(5), RSMo.

ORDER OF RULEMAKING

By the authority vested in the director of the Department of Natural Resources under section 253.035, RSMo 2016, the director amends a rule as follows:

10 CSR 90-2.020 is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on July 16, 2018 (43 MoReg 1906–1908). Those sections with changes are reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: A public hearing on this proposed amendment was held on Aug. 21, 2018. At the public hearing, the department's Division of State Parks staff explained the proposed amendment.

COMMENT: Since proposal of the rule amendment, the department determined that the proposed amendment may be interpreted to suggest that a previously mandatory department obligation had become discretionary. The proposed amendment to paragraph (11)(B)1., which requires the department to determine an animal dangerous or vicious in the event of a non-accidental bite/attack, would modify the language of that requirement from "shall" to "will." Because those terms may have different legal effect, the change may be misinterpretered. The director adopts changes to the amendment to restore mandatory language.

RESPONSE AND EXPLANATION OF CHANGE: The department is revising the language to retain the word "shall" in order to clarify the department's obligation.

10 CSR 90-2.020 Park Management

- (11) Pets and Animals at Large.
- (B) Park staff, and specifically when possible park rangers, shall investigate all animal bites or attacks and recommend a classification of the incident and a determination concerning each reported animal bite or attack.
- 1. The investigating staff member shall determine if the bite/attack was accidental or non-accidental. If non-accidental, the animal shall be determined to be dangerous or vicious. No animal is considered dangerous or vicious if the approach, injury, or damage was sustained by a person who was tormenting, abusing, or assaulting the animal; or was committing or attempting to commit a crime or intentional tort which would warrant immediate defense of person or property.
- 2. All animals involved in bites or attacks are subject to immediate impoundment by the investigating park staff. Park staff or peace officers are authorized to use lethal force to apprehend animals involved in a bite or attack.
- 3. Owners of animals are subject to fines, penalties, and any necessary capture, disease tests, impound, quarantine fees, and medical bills incurred by park staff for the animal's removal. Owners are required to report bites or attacks to park staff.

COMMENT: Since proposal of the rule amendment, the department determined that the proposed amendment may be interpreted to suggest that a previously mandatory department obligation had become discretionary. The proposed amendment to section (2), which requires the department to post methods of collecting camping fees, would modify the language of that requirement from "shall" to "will." Because those terms may have different legal effect, the change may be misinterpretered. The director adopts changes to the amendment to restore mandatory language.

RESPONSE AND EXPLANATION OF CHANGE: The department is revising the language to retain the word "shall" in order to clarify the department's obligation.

10 CSR 90-2.030 Camping and Recreational Activities

(2) Camping Fee. Methods of collecting the camping fee (site to site, office, fee booth, etc.) for each campground shall be posted as public information. Camping permits, once issued and paid for, are non-transferable.

Title 19—DEPARTMENT OF HEALTH AND SENIOR SERVICES Division 10—Office of the Director Chapter 15—Abortions

ORDER OF RULEMAKING

By the authority vested in the Missouri Department of Health and Senior Services under section 192.006, RSMo, 2016 and House Bill 2010, 99th General Assembly, Second Regular Session, the department adopts a rule as follows:

19 CSR 10-15.060 Prohibition on Expenditure of Funds **is adopted**.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on August 15, 2018 (43 MoReg 2465–2468). No changes have been made in the text of the proposed rule, so it is not reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Department of Health and Senior Services received one (1) letter with four (4) comments.

COMMENT #1: Mary Kogut with Planned Parenthood of the St. Louis Region and Brandon Hill with Planned Parenthood Great Plains commented that the definitions of affiliate and associate would harm women's health. These commenters also provide recommended language for the definitions of associate and affiliate.

RESPONSE: The department is committed to being the leader in promoting, protecting, and partnering for health, including women's health. The department in conjunction with the Department of Social Services continually monitors access to health care, including women's health care. The department does not agree that this regulation will harm women's health as there are many health care providers that already provide and will continue to provide women's health care even after this regulation becomes effective. No changes were made as a result of this comment.

COMMENT #2: Mary Kogut with Planned Parenthood of the St. Louis Region and Brandon Hill with Planned Parenthood Great Plains commented the rule unconstitutionally withholds public funds. These commenters also provide recommended language for the definitions of associate and affiliate.

RESPONSE: After careful review, the department disagrees that this rule is in violation of the *United States Constitution*. No changes were made as a result of this comment.

COMMENT #3: Mary Kogut with Planned Parenthood of the St. Louis Region and Brandon Hill with Planned Parenthood Great Plains commented the definitions of affiliate and associate are impermissibly vague under the *Missouri Constitution*. These commenters also provide recommended language for the definitions of associate and affiliate.

RESPONSE: After careful review, the department disagrees that the definitions of affiliate and associate are impermissibly vague. The definitions are permissible under the *Missouri Constitution*. No changes were made as a result of this comment.

COMMENT #4: Mary Kogut with Planned Parenthood of the St. Louis Region and Brandon Hill with Planned Parenthood Great Plains commented that the department does not have authority to promulgate the rule because House Bill 2010 violates the single subject rule and impermissibly legislates through the budget process. These commenters also provide recommended language for the definitions of associate and affiliate.

RESPONSE: The department has statutory authority to adopt, amend, and appeal rules necessary to carry out the duties of the programs that it administers. Further, the department disagrees that House Bill 2010 violates the single subject rule or impermissibly legislates through the budget process. No changes were made as a result of this comment.
